

- Material damping
- Load Ranges up to 35,400 lbs. (158 kN)
- Effectively isolates inertial and impact forces up to 99%
- Heavy-duty, low stress design
- Shim leveling design.

CUSTOM DESIGNS & SIZES ARE AVAILABLE

Model Number	L		W		H ±1/8"(3mm)		Load Capacity		Foundation Flatness ±		Foundation Slope		Estimated Weight

TYPICAL APPLICATIONS

- High Speed Balanced Stamping Press
- Hydraulic Presses
- Ventilation Systems
- Isolated Foundations
- Turbines
- Pumps, Blowers
- Centrifuges
- Mills

NOTE: Isolator data subject to change without notice.
